

Invitation to a seminar about Vojta method 2. generation 6th – 9th October 2016

Held under the patronage of MEP Doc. Pavel Svoboda

Lecturer:

Mgr. Václav Krucký, Doc. František Zahálka, Mgr. Monika Židková

Place:

Training center, Klášter Naší Paní nad Vltavou Monastery,
Poličany – Křečovice 10, 257 56 Neveklov

Daily schedule:

Thursday 6.10.

10.00 – 12.40 – arrival, registration and time for relax and accommodation

12.45 – lunch

14.00 – first study session

topic: introduction of Vojta therapy, principles of VM2G , possibilities of VM2G from the neurophysiological perspective

lecturer : Mgr. Václav Krucký

15.30 – break

16.00 – second study session

topic: practical demonstration of VM2G with a child patient after brachial plexus palsy, education of parents

lecturer: Mgr. Václav Krucký

17.15 – free time

18.15 – dinner

19.00 – practical rehearse VM2G, feedback, discussion

lecturer : Mgr. Václav Krucký

practical training of VM2G : Mgr. Monika Židková

20.30 – closing of the day

Friday 7.9.

8.00 – breakfast

8.30 – third study session

1. topic: the human motion from the point of view

- geometry
- mechanics
- biomechanics
- anatomy
- neurofyziology

lecturer: Mgr. Václav Krucký

2. topic: case history of one patient

lecturer: Mgr. Monika Žídková

10.00 – break

10.15 – fourth study session

topic: use of VM2G by patients with neurodegenerative illness,
practical demonstration with a patient with multiple sclerosis
technical utilities for VM2G

lecturer: Mgr. Václav Krucký

12.45 – lunch

14.00 – fifth study session

topic: VM2G and its influence on biomechanics of child patients with neonatal
problems

lecturer: Doc. František Zahálka

15.30 – break

16.00 – sixth study session

topic: practical training of VM2G

lecturer: Mgr. Václav Krucký

17.15 – free time

18.15 – dinner

19.00 – practical rehearse VM2G, feedback, discussion

lecturer : Mgr. Václav Krucký

practical training of VM2G : Mgr. Monika Žídková

20.30 – closing of the day

Saturday 8.10.

8.00 – breakfast

8.30 – seventh study session

topic: the therapeutic possibilities and indications for pro VM2G
practical demonstration with a child patient

lecturer: Mgr. Václav Krucký

10.00 – break

10.15 – eight study session

topic: the therapeutic possibilities and indications for pro VM2G

1. practical demonstration with an adult patient
2. practical demonstration with a child patient suffering under a rare neurological disease

lecturer: Mgr. Václav Krucký

12.45 – lunch

14.00 – ninth study session

topic: practical rehearse VM2G,
practical demonstration with three child patients with disturbed posture

lecturer: Mgr. Václav Krucký

15.30 – break

16.00 – tenth study session

topic: VM2G from the neurological point of view, 3D biomechanics and 3D anatomy
practical rehearse VM2G

lecturer: Mgr. Václav Krucký

17.15 – free time

18.15 – dinner

19.00 – practical rehearse VM2G, feedback, discussion

lecturer : Mgr. Václav Krucký

practical training of VM2G : Mgr. Monika Žídková

20.30 – closing of the day

neděle 9.10.

8.00 – breakfast

8.30 – jedenáctý study session

topic: therapy of posture disturbances by adult patients
practical demonstration with an adult scoliotic patient

lecturer: Mgr. Václav Krucký

10.00 – break

11.00 – twelfth study session

topic: practical demonstration with a child patient with severe congenital neurological disability, education of parents

lecturer: Mgr. Václav Krucký

12.45 – lunch

14.00 – closing of the whole seminar
